Photo Manager 2009

The easy way to organize and share your photos.

Manage your image collection with ease! ACDSee Photo Manager 2009 has everything you need to quickly organize and find photos, fix flaws and share favorites.

NEW Features in ACDSee 2009

- Organize up front - set categories, keywords, and create backups and more as you pull images in from your camera.
- Save your frequently-used searches for ongoing use.
- Easily share your categories, keywords and ratings with other ACDSee users by embedding them in your image.
- View images from around the world with UNICODE support.
- Restore your original anytime, for worry-free editing.
- Add custom borders, drop shadows and edge effects.
- Try the enhanced slideshow features, including pan & zoom, black & white, and sepia effects, plus support for music files.

Keep your digital images organized with ACDSee Photo Manager 2009. Browse your collection, find photos quickly and share them through e-mail, prints and online albums. Fix red-eye, lighting and more with powerful correction tools. ACDSee 2009 is the best solution for managing your growing photo collection.

Browse & View

- Fill your screen with photos, zoom through thumbnails and study photos at full size.
- Double click on an image to display it instantly.
- Browse your photos by date or event in the convenient Calendar.

Organize

- Stay in control of your catalog by automatically importing, renaming and categorizing your new images from your cameras and other devices.
- Sort photos into Windows® file folders, add keywords and ratings, edit your metadata, and create custom categories.
- Find images without delay using lightning fast search tools.

Edit

- Fix common photo flaws such as red-eye and blemishes with the click of a mouse.

- Correct lighting issues with the patent-pending Shadows/Highlights tool.
- Rotate, rename or resize groups of images all at once.

Share

- Create instant Flash slideshows and PowerPoint presentations complete with captions and titles.
- Save paper and ink with optimized print templates.
- Share images via email or upload to online photo sites.

Archive

- Burn CDs and DVDs to backup critical image assets.
- Save your files in PDF format for secure sharing.
- Create .zip archives of your images.
