

acdsee™ 10

The easy way to organize, enhance and share your photos.

ACDSee 10 makes it effortless to manage your growing image library. View, organize, enhance and share – with ease and efficiency.

NEW Features in ACDSee 10

- The new Quick View mode is the fastest way to see your images. Simply double click on an image and it will display almost instantly.
- Browse your photos by date in extended calendar view.
- Unzip your archived files directly in ACDSee.
- Create PowerPoint presentations, complete with captions and titles.
- Enhanced editing features allow even greater control over image details.
- Faster keyword searching means you can find your images without delay.

Trust ACDSee 10 with the management of your growing image library. Easily and efficiently view, organize, edit, share and archive your digital assets. You'll spend less time on your image tasks and more time being productive, with the world's leading photo manager by your side.

Browse & View

Be productive right away – our Quick Start Guide means little to no training is required. Quickly browse through your thumbnails to select the best images for your projects. View your photos precisely the way you want – at any size or magnification.

Organize

Stay in control - ACDSee automatically imports, renames, and categorizes your new images from your cameras, memory cards and other storage devices. Organize your photos using custom organizational categories, keywords and ratings.

Edit

Fix common photo flaws such as red-eye and blemishes with the click of a mouse. Rescue important shots with the shadow/highlights tool that corrects lighting issues. Rotate, rename, and resize groups of images all at once

Share

Create instant PDF and Flash slideshows to quickly deliver presentations or to review photos. Print images in any size, and on customized contact sheets. Conveniently share images via email or on the web.

Archive

Burn CDs and DVDs to backup critical image assets. Save your files in PDF for reliable sharing with colleagues. Create archives of your images.
