2 Creating a SendPix album and slideshow

3 Adding the SendPix slideshow to your site

4 Which sites can you add the slideshow to?

5 Key concepts

ACDSee SendPix is a free image-sharing service. To use the SendPix service, select the images you want to share in ACDSee and use the menu or toolbar options to upload them to a personal web album.

The screenshot displays the ACDSee SendPix interface. At the top, there is a dark banner with the ACDSee SendPix logo on the left. In the center of the banner, it says "Try ACDSee Pro 2 for yourself Free 30-day Trial". On the right side of the banner, there is a "DOWNLOAD" button with the ACDSee Pro 2 logo. Below the banner, a grid of eight desert landscape photographs is shown. A thin line with a small square at the end points from the text above to the first photo in the grid.

What is ACDSee SendPix?

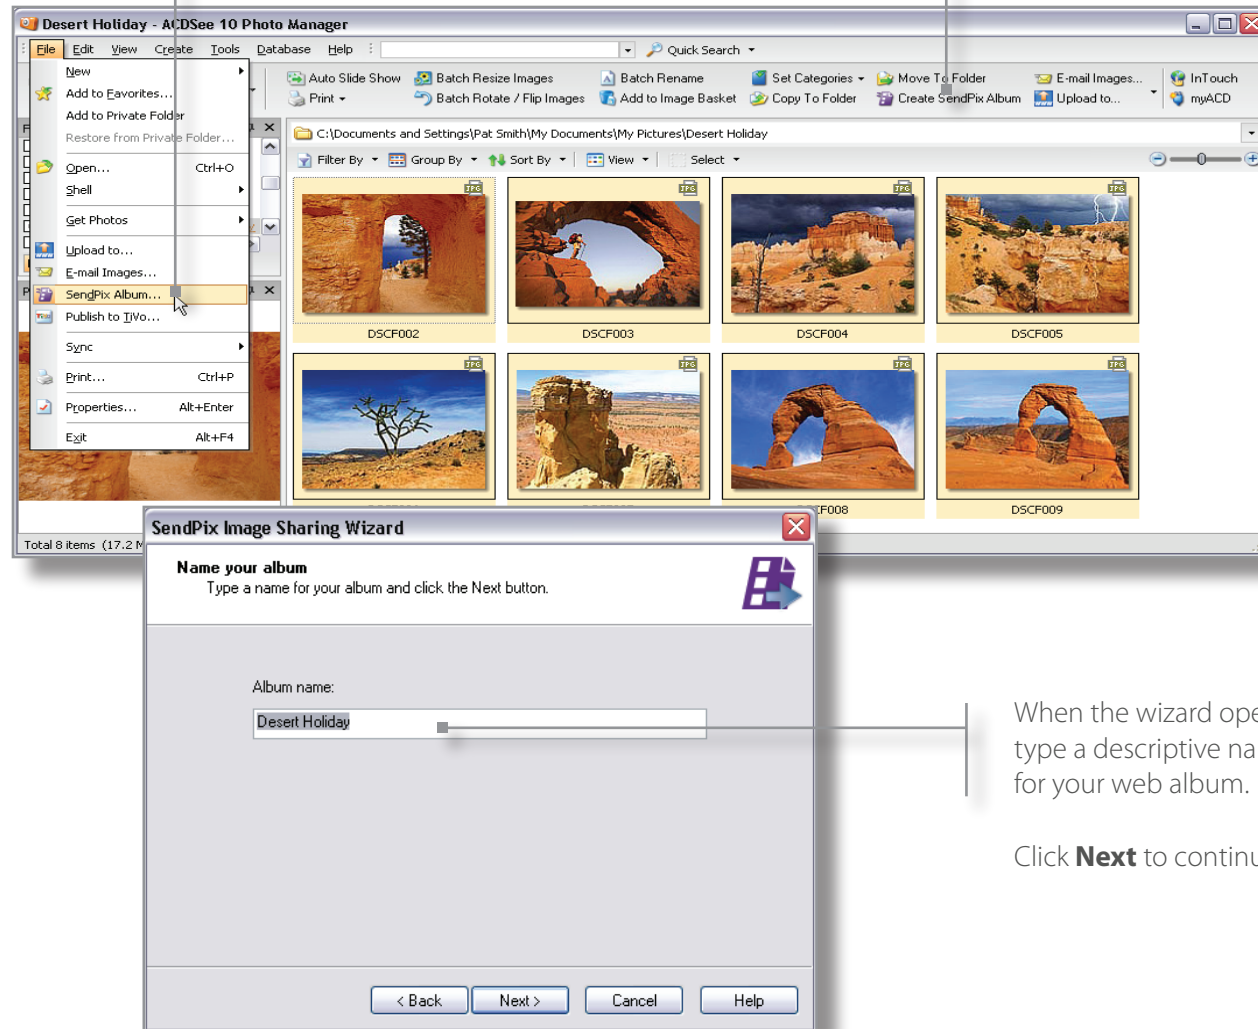

Creating a SendPix album and slideshow

Adding the SendPix slideshow to you site

Which sites can you add the slideshow to?

Key concepts

Before it uploads your images to your web album, the SendPix service gives you a chance to add or remove images, rotate them, adjust exposure, and even add a description.

Click **Next** to continue.

On the next page of the wizard, add the e-mail addresses of the people you want to see your web album and write a personal message.

Click **Next** to continue.

On the last page of the wizard, click **Send** to upload your images to your web album.

Show off your album on your website

Show off your album in a simple widget on your website or blog. Visitors to your site can play, pause and scroll through your photos, or click through to your album.

How to post your widget:

1. Copy the code below.
2. Paste the code into the body code for your website or blog.

widget code:

```
<object classid="clsid:d27c0b6e-ae6d-11cf-96b8-444c53540000"
codebase="http://fpdownload.macromedia.com/pub/shockwave/cabs/flash/swflash.cab#version=8,0,0,0"
width="160" height="500" id="sendpix" align="middle">
<param name="allowScriptAccess" value="sameDomain" />
<param name="movie" value="http://api.sendpix.com/sendpix.swf" />
<param name="menu" value="false" />
<param name="quality" value="low" />
<param name="bgcolor" value="#990000" />
<param name="FlashVars" value="album=http://www.sendpix.com/albums/07102708/z6eb8sredw" />
<embed src="http://api.sendpix.com/sendpix.swf"
FlashVars="album=http://www.sendpix.com/albums/07102708/z6eb8sredw" menu="false"
quality="high" bgcolor="#990000" width="160" height="500" name="sendpix" align="middle"
allowScriptAccess="sameDomain" type="application/x-shockwave-flash">
```

The SendPix service automatically adds the images in your web album to a slideshow widget. The e-mail includes instructions for adding the slideshow widget to your personal or social networking web sites.

1 What is ACDSee SendPix?

2 Creating a SendPix album and slideshow

3 Adding the SendPix slideshow to your site

4 Which sites can you add the slideshow to?

5 Key concepts

You will find that it is incredibly easy to add the slideshow widget to your personal web site or blog. All you have to do is open the e-mail sent to you by the SendPix service, select and copy the slideshow widget code, and paste the code into the composition area of your blog, the note or comment area of your web site or blog. In the example below, you can see the code in a Blogger post.

The screenshot shows the Blogger post editor interface for "Pat and John's Blog". The "Posting" tab is active, and the "Edit HTML" view is selected. The title of the post is "My desert holiday!". The main content area contains the following HTML code:

```
John and I just got back from our desert holiday. We were amazed at the scenery and took hundreds of pictures! These are the best of the bunch:  
  
<object classid="clsid:d27cdb6e-ae6d-11cf-96b8-444553540000"  
codebase="http://fpdownload.macromedia.com/pub/shockwave/cabs/flash/swflash.cab#version  
width="160" height="500" id="sendpix" align="middle">  
<param name="allowScriptAccess" value="sameDomain" />  
<param name="movie" value="http://api.sendpix.com/sendpix.swf" />  
<param name="menu" value="false" />  
<param name="quality" value="low" />  
<param name="bgcolor" value="#990000" />  
<param name="FlashVars"  
value="album=http://www.sendpix.com/albums/07102708/z6eb8sredw/" />
```

Below the code, there are "Post Options" and a "Labels for this post" field containing "e.g. scooters, vacation, fall". At the bottom, there are buttons for "PUBLISH POST" and "SAVED", along with the text "Draft autosaved at 9:45 AM".

1 What is ACDSee SendPix?

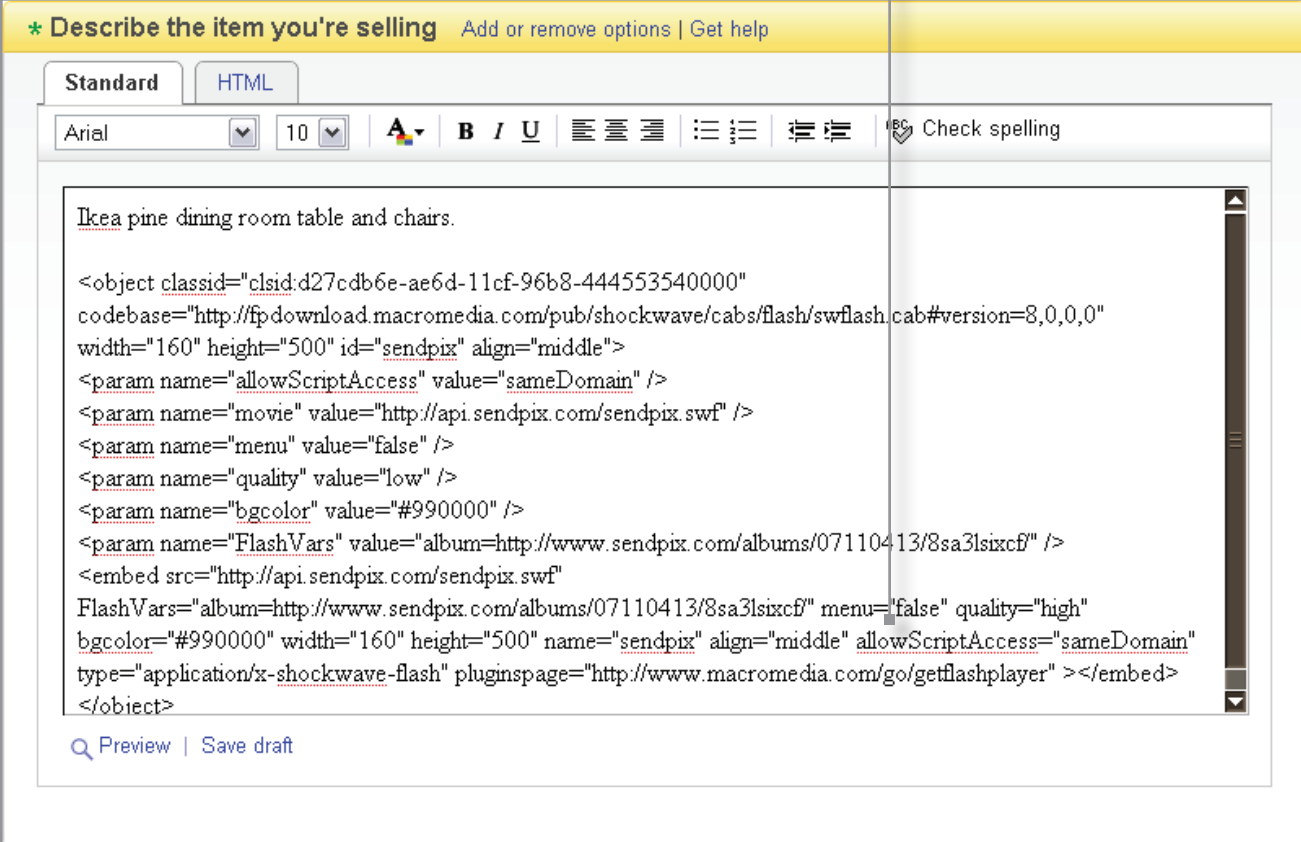

2 Creating a SendPix album and slideshow

3 Adding the SendPix slideshow to you site

4 Which sites can you add the slideshow to?

5 Key concepts

You've already seen how you can add the SendPix slideshow widget to a blog. You can also add the widget to web sites like eBay. In the example below, you can see the slideshow widget code in an eBay sales description.

The screenshot shows a web editor interface for describing an item. The title is "* Describe the item you're selling" with links for "Add or remove options" and "Get help". There are two tabs: "Standard" and "HTML". The "HTML" tab is selected, showing a rich text editor toolbar with options for font (Arial), size (10), bold, italic, underline, bulleted list, numbered list, link, unlink, and a "Check spelling" button. The main text area contains the following HTML code:

```
Ikea pine dining room table and chairs.  
  
<object classid="clsid:d27c6b6e-ae6d-11cf-96b8-444553540000"  
codebase="http://fpdownload.macromedia.com/pub/shockwave/cabs/flash/swflash.cab#version=8,0,0,0"  
width="160" height="500" id="sendpix" align="middle">  
<param name="allowScriptAccess" value="sameDomain" />  
<param name="movie" value="http://api.sendpix.com/sendpix.swf" />  
<param name="menu" value="false" />  
<param name="quality" value="low" />  
<param name="bgcolor" value="#990000" />  
<param name="FlashVars" value="album=http://www.sendpix.com/albums/07110413/8sa3lsixcf" />  
<embed src="http://api.sendpix.com/sendpix.swf"  
FlashVars="album=http://www.sendpix.com/albums/07110413/8sa3lsixcf" menu="false" quality="high"  
bgcolor="#990000" width="160" height="500" name="sendpix" align="middle" allowScriptAccess="sameDomain"  
type="application/x-shockwave-flash" pluginspage="http://www.macromedia.com/go/getflashplayer" ></embed>  
</object>
```

At the bottom of the editor, there are links for "Preview" and "Save draft".

1 What is ACDSee SendPix?

You can add the SendPix slideshow widget to any site that allows you to compose and post HTML-based messages, notes, or comments.

2 Creating a SendPix album and slideshow

There is one thing to keep in mind when you use the SendPix service to create a web album or slideshow. Your SendPix album is securely hosted by ACDSee and will be live for 30 days. If you create and post a slideshow widget on your web site or blog, your album will remain live until you remove the widget, or until your site is no longer active.

3 Adding the SendPix slideshow to your site

4 Which sites can you add the slideshow to?

5 Key concepts

1 What is ACDSee SendPix?

2 Creating a SendPix album and slideshow

3 Adding the SendPix slideshow to your site

4 Which sites can you add the slideshow to?

5 Key concepts

Check to see if you learned these key concepts:

- » ACDSee SendPix is a free image sharing service. You can use the SendPix service to upload your images directly from ACDSee to a web album. The SendPix service also automatically creates a slideshow widget that you can add to your personal or social networking site.
- » The SendPix service sends an e-mail to you with instructions for viewing your web album and adding the slideshow widget to your web sites.
- » To add the slideshow widget to a site, simply select and copy the slideshow code from the e-mail and paste the code into the composition area of your blog, social networking site, or web site.
- » Normally, your SendPix album is active for 30 days. If you add the slideshow widget to a site, the web album remains active as long as the widget remains on the site or as long as the site is active.
